- In the real world, newsmakers, athletes and teachers are all leaders, influencing those around them

Principles of Leadership (con't)

- On one hand, we have leaders who influence positively (e.g. people leading nonprofits, sports teams)
- On the other hand... we have leaders who influence others negatively (e.g. drug dealers, criminals)
- *Question: what are some other examples of negative leadership?*
- It's up to 🙌 to choose what type of leader you are

Principles of Leadership (con't)
